

SPACES chooses ATALIAN Green Kitchen for its catering in Belgium

GREEN KITCHEN continues its development in the catering sector through its partnership with SPACES covering the implementation of catering points in the new SPACES co-working locations for the next 5 years.

SPACES, a subsidiary of International Workplace Group (IWG), formerly known as Regus, is setting up its innovative concept of co-working space in Belgium. Present worldwide, SPACES combines workspaces, meetings and relaxation, with the aim of facilitating networking between the various occupying companies while offering a wide range of services and amenities.

ATALIAN GREEN KITCHEN offers a fresh, natural, balanced and innovative catering concept for corporate restaurants and a daily delivery service at the workplace.

Customer satisfaction is and will remain the priority of this partnership.

The ATALIAN GREEN KITCHEN / SPACES partnership is another step in the growth of the Groupe ATALIAN in Belgium.

" ATALIAN wishes to distinguish itself by diversifying its services on the Belgian facility services market. The aim is to become an important and essential partner in multi-services. This project with SPACES is part of this strategy," says Guido PERREMANS, Region Manager Benelux - CEO Belgium.

The project to open co-working 2.0 named SPACES in Belgium, is more than ambitious. More than a dozen new sites of more than minimum 3000m² are confirmed and will be ready by 2020. Offices, co-working spaces, business lounge, meeting rooms and Coffee Corner will be ready to welcome a new community of co-working. So, SPACES becomes "The place to be" with a multitude of services and events for its customers.

"A call for tenders was launched in March 2018 to select the best partner to manage our Coffee Corner", explains William Willems, Regional General Manager Belgium & Luxembourg for Regus and Spaces.

PRESS RELEASE

Brussels, 29 november 2018

"Our choice has turned to Green Kitchen which will ensure all our sites in Belgium. This Belgian supplier has attracted our attention thanks to its fresh products, quality and its way of promoting short food supply chains. Mr. Lejeune, brand manager, is very attentive and flexible about our requests. A nice collaboration has just emerged with two already open sites: SPACES EU Belliard and SPACES Mechelen. The partnership SPACES and Green Kitchen is ready for adventure!" William Willems concludes.

About ATALIAN:

With a turnover of more than 3 billion euros (pro forma 2018), more than 125,000 employees and a presence in 33 countries, ATALIAN SERVEST is an independent leader in the field of facilities services.

ATALIAN has more than 32,000 customers in the private and public sectors.

Its services are organized around several businesses: Cleaning, Catering, Multi-technical and Facility Management, Security, Reception, Landscaping, Finishing works, Energy Management ...

About Spaces :

Spaces offers an inspiring work environment for growing professionals and businesses. In addition to office space, meeting rooms and a network of members are available to work together to think and create. Spaces aims to provide an inspiring work environment with an entrepreneurial spirit where ideas are concretely transformed, where a company has the space to develop and where qualitative relationships are created. Spaces has two centers in Belgium, Diegem and Brussels (the European district). Spaces will open, again this year, a center in Mechelen.
