NOTE 1

GENERAL INFORMATION AND SIGNIFICANT EVENTS

The terms “the Atalian Group” and “the Group” refer to the parent company, La Financière Atalian, and its consolidated subsidiaries and equity method affiliates. The term “the Company” refers solely to the parent company, La Financière Atalian.

La Financière Atalian – the Group holding company – is a simplified joint-stock company incorporated under French law (*société par actions simplifiée*), whose registered office is located at 56 rue Ampère, 75017 Paris, France.

The Atalian Group provides cleaning services and other support services to companies and organisations, in France, in UK and internationally, in total in 36 countries. La Financière Atalian is owned, in majority, by an intermediate holding: Atalian Holding Development and Strategy (AHDS).

The condensed interim consolidated financial statements are unaudited and presented in millions of euros unless otherwise specified.

SIGNIFICANT AND SUBSEQUENT EVENTS OF THE FIRST SIX MONTHS OF 2021

Extension of French State Guaranteed Loan

Atalian has exercised on 16 April 2021 the extension option for 1 additional year of the French State Guaranteed Loan of €50 million ('PGE'), the new maturity is June 2022. The loan will be repaid in quarterly installments of €12.5 million each starting September 2021.

Repurchase of minority shares

Following approval in the shareholders' general meeting on 9 March 2021, the Company has bought back 1,630,622 shares for a total amount of €12.4 million and has cancelled the repurchased shares. Following a capital reduction, AHDS holds 98.5% of La Financière Atalian.

Deconsolidation of shareholding in Harta Maintenance Company

A dispute and litigation between Atalian and its minority shareholder with regard to the shareholding of Harta Maintenance Company is ongoing and the Group has decided to deconsolidate its shareholding in this entity as of 1 April 2021.

NOTE 2

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of the Group's consolidated financial statements for the first six months of the year 2021 are set out below. These policies have been consistently applied to all the financial periods presented, unless otherwise stated.

2.1 FINANCIAL YEAR-END

The Group's companies have been consolidated based on their financial statements as of 30 June 2021 for a period of 6 months.

2.2 CONSOLIDATION METHODS AND SCOPE OF CONSOLIDATION

2.2.1 Subsidiaries

Subsidiaries are the companies over which La Financière Atalian has control, either directly or indirectly. Control is characterized by power over the investee with the current ability to direct the relevant activities and an exposure or rights to variable returns with the ability to use its power over the investee to affect the amount of the investor's returns. They are consolidated with fully consolidated method, taking into account the existence and effect of the voting rights of non-controlling interests. Control is presumed to exist when the Group has the power to govern an entity's financial and operating policies so as to obtain benefits from its activities, generally as a result of a shareholding representing more than a half of the voting rights. Control may also arise when a contract exists entitling the Group to govern an entity's financial and operating policies, or when the Group is able to govern the financial and operating policies by virtue of de facto control. The existence and effect of potential voting rights

that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Intra-group transactions, balances and unrealised gains on transactions between Group companies are eliminated at consolidation level.

Subsidiaries are fully consolidated from the date when control is transferred to the Group and are deconsolidated from the date when control ceases.

The profit or loss of subsidiaries is allocated between the Group and non-controlling interests based on their percentage interest in the subsidiary concerned, even if this results in the recognition of negative amounts.

A list of La Financière Atalian's subsidiaries is provided in Note 9.

2.2.2 Associates

Associates are entities over which the Group has significant influence but not control.

Investments in associates are accounted for using the equity method. Under the equity method, the investment is initially recognised at cost, and the carrying amount is increased or decreased to recognise the investor's share of the profit or loss of the investee after the date of acquisition. The Group's investment in associates includes goodwill (net of any accumulated impairment losses) identified at the time of acquisition, which is not tested separately. If the Group's interest in an associate is reduced to zero, additional losses are provided for and a liability is recognised only to the extent that the Group has incurred legal or constructive obligations on behalf of the associate.

The Group's share of the profit or loss of associates is recognised in the consolidated income statement, and its share of movements in other comprehensive income is recognised in other comprehensive income. Unrealised gains on transactions between the Group and its associates are eliminated pro rata to the Group's interest in the associates concerned.

A list of the Group's associates is provided in Note 9.

Accounting policies of subsidiaries and associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

2.2.3 Other investments

Shares in companies over which La Financière Atalian does not exercise any influence are recognised as investments in non-consolidated companies and measured at fair value through OCI, as "Other Non-Current" financial assets.

2.2.4 Changes in the scope of consolidation

	At 30 June 21	At 31 December 2020
Fully consolidated companies	213	241
Companies accounted for by the equity method	3	5
	216	246

The change in the scope of consolidation is mainly driven by the internal merger of Group entities.

2.3 TRANSLATION OF THE FINANCIAL STATEMENTS OF FOREIGN SUBSIDIARIES

The results and financial position of consolidated subsidiaries that have a functional currency other than euro are translated into euros as follows: (i) assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet (except for equity which is translated at historical rates), and (ii) income and expenses and cash flow statement items are translated at average exchange rates for the period. All resulting exchange differences are recognised under "currency translation reserve" in other comprehensive income.

In application of IAS 21, the loans constituting in substance monetary items that are part of the net investment in foreign subsidiaries were analysed in order to identify the loans whose payment is neither planned nor probable in the foreseeable future.

In compliance with IAS 21.15 and 32, exchange differences relative to a loan are recognised in other comprehensive income (OCI) and must be reclassified later to profit or loss on disposal of the net investment. Financing which qualifies as a net investment in foreign subsidiaries concerns subsidiaries in the UK.

2.4 TRANSLATION OF FOREIGN-CURRENCY TRANSACTIONS

Foreign-currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the

reporting date are translated into the functional currency at the closing rate. Any resulting exchange differences are recognised in the income statement under the financial expenses.

2.5 FINANCIAL RISKS

For a description of financial risks please refer to the Group's 2020 Annual Report.

2.6 STATEMENT OF CASH FLOWS

The Group has opted to use the indirect method to present the consolidated statement of cash flows, which consists in determining cash flows from operating activities by adding back to or deducting from net income (loss) for the period all non-cash transactions and all cash flows relating to investing and financing activities.

Net cash and cash equivalents – whose movements are analysed in the statement of cash flows – are defined as cash and cash equivalents less short-term bank loans and overdrafts.

NOTE 3

SEGMENT REPORTING

Identification of segments

These divisions are used for the management and internal reporting:

The group has identified three operating segments that correspond to the geographical location of the assets as follows:

- A “France” division, comprising all of the companies located in France.
- A “UK” division, comprising all UK and Ireland companies.
- An “International” division, comprising all the companies excluding France, UK and Ireland companies
- “Others”, which include intersegment revenue and holding costs.

Segment indicators

For each of its operating segments, the Group presents the following income statement items:

- Revenue
- Operating profit before depreciation, amortisation, provision and impairment loss.

The accounting methods applied for each operating segment are those used for preparing the consolidated financial statements.

The information presented for each operating segment corresponds to “contributive data”, i.e. after eliminating inter-segment transactions.

Based on these principles, the Group's segment information is as follows:

	By operating segment

NOTE 5

LEASES

The Group has chosen to apply these two capitalization exemptions proposed by the standard:

- contracts with a lease term of less than 12 months
- contracts with value of underlying assets of less than €5,000.

The lessee is required to record:

- a non-current asset representing the right to use the lease asset (on the assets side of the consolidated statement of financial position)
- a financial debt represented the obligation to pay this right (on the liabilities side of the consolidated statement of financial position)
- depreciation expenses and interest expenses in the consolidated income statement.

Duration of assets assumptions:

The lease term for Real estate contracts corresponds to

the non-cancellable period and is supplemented with the option of renewal (or termination) for certain contracts of which the exercise for the Group is considered reasonably certain.

Discount rate assumptions:

A unique discount rate is determined for each portfolio of homogeneous contracts. Discount rates are based on the marginal borrowing rate (or implicit rate of contracts where available) by currency, taking into account, in particular, the economic environments specific to each geographical area.

5.1 FIXED ASSETS

The tangible and intangible assets held by the Group are allocated as below:

in millions of euros	30/06/2021

On 2 June 2020, the Group concluded a Term Loan guaranteed by the French State ("PGE") of €50.0 million with its main banking partners. This €50.0 million term loan has an initial maturity of 1 year, with an up to 5-year extension option. This extension option has been exercised on 16 April 2021 for 1 year extension. The loan will be repaid in quarterly installments, up to 24 June 2022. The Group has a revolving credit facility ("RCF") of €103.0 million maturing in April 2023. As of 30 June 2021 the RCF was not drawn. As per RCF, LFA shall ensure that the Secured Debt incurred by any member of the Group shall not exceed at any time in aggregate higher of (i) €465.0 million or (ii) 17.5% of the Total Assets.

This financing is subject to a financial covenant based on the Group's consolidated accounts. Secured Leverage Ratio shall not exceed 1.75x as of 31 December and 30 June closings.

On 5 May 2017, the Group issued a €625.0 million bond maturing on 15 May 2024 (i.e. 7 years) and bearing a coupon of 4.0%.

On 9 May 2018, with the acquisition of Servest, the Group issued two new bonds maturing on 15 May 2025 for €350.0 million and £225.0 million, respectively bearing a coupon of 5.125% and 6.625%.

These financings are subject to limited financial covenants based on the Group's consolidated accounts.

6.3 FACTORING

Several of the Group's subsidiaries sell their trade receivables on a monthly basis under factoring contracts. In 2020, the UK factoring facility has been increased by £8.0 million from £27.0 million to £35.0 million and converted to non-recourse.

The non-recourse facility of €180.0 million (covering France, Belgium, Czech Republic) has been increased to €220.0 million and extended to September 2022.

At 30 June 2021, these contracts involved the transfer of substantially all the risks and rewards of ownership of the receivables concerned to the factoring companies, enabling the sold receivables to be derecognised. The amount of the derecognised receivables totalled €261.6 million at 30 June 2021, giving the Group €205.0 million, in cash with the remaining €23.5 million corresponding to a security

deposit and €33.1 million to factor current account and client payments not yet deducted. The amount of deconsolidated factoring financing was €165.8 million as of 31 December 2020.

In addition, factored receivables for which the Group has not transferred substantially all the risks and rewards of ownership are not derecognised and remain recorded in the balance sheet under "Trade receivables", with the recognition of a corresponding financial liability. Immediate financing provided by these receivables totalled €1.7 million as of 30 June 2021 and €10.4 million as of 31 December 2020.

The Group has been mandated by the factoring companies to manage on their behalf the recovery of the receivables that have been sold to them.

NOTE 8

GOODWILL

Acquisitions are accounted for under the acquisition method in accordance with IFRS 3. Under this method, the purchase price is allocated to the identifiable assets acquired and liabilities assumed based on their acquisition-date fair values.

Their fair values calculated at the acquisition date and may be adjusted within twelve months of that date.

Cost directly related to the acquisition are expensed as incurred and are included in External charges in the consolidated income statement.

Goodwill corresponds to the excess of (i) the aggregate of the consideration transferred and the amount of any non-controlling interests in the acquiree, as measured at fair value, over (ii) the net of the acquisition-date fair values of the identifiable assets acquired and liabilities assumed. Positive goodwill is recognised in the balance sheet, under Goodwill and negative goodwill is recorded in the income statement in the year of the acquisition.

Goodwill is tested for impairment at least annually, at the same time each year, and whenever there is an indication that it may be impaired.

For the purpose of impairment testing, goodwill is allocated to each Cash-Generating Unit (CGU) that is expected to benefit from the synergies of the business combination, depending on the level at which the return on investments is monitored. A cash-generating unit is the smallest identifiable group of assets that generates cash inflows that are largely independent of those generated by other assets of the entity.

An impairment loss is recognised if the net book value of the Cash-Generating Unit (CGU) is greater than its recoverable amount. If applicable, an impairment loss recognised in respect of one CGU is allocated first to the reduction in the carrying amount of any goodwill allocated to the CGU and then to the reduction in the carrying amount of the other assets of the CGU prorated to the book value of each asset in the CGU. Any impairment of goodwill is then definitive.

Goodwill is tested at the level of groups of CGUs corresponding to the operating segments as below:

- A France CGU, comprising all of the companies located in France,
- A UK CGU, comprising all companies located in the UK and Ireland,
- An International CGU, comprising all companies outside France, UK and Ireland and the Aktrion sub-group.

8.3 CGU IMPAIRMENT TESTING

The estimates and assumptions used to perform the impairment tests at the end of 2020 have in our view not materially changed until the closing of our financial statements as of 30 June 2021. The financial results of our CGUs in the first six months of 2021 have been in line with our expectations and the underlying assumptions of the

impairment test for the respective period. In the absence of an updated medium-term business plan at this time and in line with our Outlook for 2021 and 2022 there was no indication that goodwill may be impaired at this time.
